HITM2283 - Intermediate Diagnosis Coding

Credits:	3 (1/2/0)
Description:	This course is a continuation of coding guidelines using the current International Classification of Diseases. Students will practice assigning diagnosis codes to clinical information found in a health record while maintaining ethical coding standards.
Prerequisites:	• BIOL1170 • HITM1236 • HLTH1116
Corequisites:	
Pre/Corequisites*:	
Competencies:	1. Evaluate the accuracy of diagnostic coding using sample exercises and medical records. 2. Verify the documentation in a health record is timely, complete and accurate. 3. Comply with ethical standards of practice. 4. Abstract clinical information from medical documentation. 5. Apply coding concepts to chapter-specific guidelines. 6. Determine the principal and secondary diagnoses from patient encounter documentation. 7. Apply diagnosis codes according to current regulations and guidelines. 8. Utilize various coding references for ICD-10-CM. 9. Describe information systems utilized in the assignment of diagnosis codes.
MnTC goal areas:	None

*Can be taking as a Prerequisite or Corequisite.
