ADMM2152 - Advanced Coding

Credits:	4 (2/2/0)
Description:	This course is a continuation of ADMM1152 Outpatient Coding. Students will learn to extract coding information from medical records. This course emphasizes correct application of diagnosis and procedure coding guidelines and provides an introduction to computer coding applications.
Prerequisites:	• ADMM1152
Corequisites:	
Pre/Corequisites*:	
Competencies:	1. Abstract coding information from medical documents. 2. Determine correct evaluation and management (E&M) services. 3. Determine correct anesthesia services. 4. Determine correct surgery services. 5. Determine correct radiology services. 6. Determine correct pathology and laboratory codes. 7. Determine correct medicine codes. 8. Determine correct procedure code sequence. 9. Apply procedure coding guidelines. 10. Determine correct diagnosis codes. 11. Determine correct diagnosis code sequence. 12. Apply diagnosis coding guidelines. 13. Utilize current coding technology.
MnTC goal areas:	None

*Can be taking as a Prerequisite or Corequisite.
