WEBD2110 - Web Portfolio

Credits:	3 (1/2/0)
Description:	In this course, students will plan, design and create a professional portfolio using Web technologies. The purpose of the portfolio is to showcase the student's accomplishments in the student's major field and provide the student with a concrete representation of his or her skills and abilities. Other topics include resume creation, job interview preparation, job search strategies and the ability to explain and articulate portfolio samples.
Prerequisites:	• WEBD2000 • WEBD2020
Corequisites:	
Pre/Corequisites*:	
Competencies:	1. Summarize traits of high-quality Web portfolios. 2. Produce a thorough portfolio inventory and evaluation. 3. Produce professional-level portfolio samples. 4. Create an online portfolio. 5. Complete a portfolio presentation, providing articulate discussions on each piece. 6. Critically analyze other students' work and communicate analyses during class critiques. 7. Create a technical resume. 8. Evaluate employment resources. 9. Develop job search strategies. 10. Demonstrate preparation to conduct a professional job interview. 11. Exhibit organization, efficiency and professionalism in self-directed projects.
MnTC goal areas:	None

*Can be taking as a Prerequisite or Corequisite.
