

EARLY CHILDHOOD CERTIFICATE - 18 CREDITS

About this program

This certificate program includes coursework in child development (birth through age 8), behavior guidance, development of environments and curriculum for young children, and relationships with families, as well as on-site experiences in a variety of programs.

Program outcomes

1. Create developmentally appropriate learning experiences for children.
2. Apply appropriate guidance strategies for children based on knowledge of developmental stages.
3. Understand nutrition requirements for a child care program.
4. Communicate effectively with parents and co-workers.
5. Demonstrate knowledge in the care of and planning for children with special needs.
6. Demonstrate professional behaviors consistent with the child care professional code of ethics.
7. Demonstrate an understanding of typical and atypical development in children ages birth through 8.
8. Demonstrate knowledge of physical and emotional health and safety issues.

Curriculum overview

Crds	Requirement type
18	Required courses
18	Total

Developmental courses note: A student may be required to enroll in developmental courses in reading, writing and math. A student's scores on the Accuplacer assessment will determine enrollment in developmental courses. The purpose of developmental courses is to prepare students for the demands of a college-level curriculum. *Credits may vary.*

Accreditation: Minnesota State Community and Technical College is accredited by the Higher Learning Commission, a regional accreditation agency recognized by the U.S. Department of Education. The Higher Learning Commission 230 South LaSalle Street, Suite 7-500 Chicago, IL 60604-1411 <http://www.ncahigherlearningcommission.org> Phone: 312.263.0456 / 800.621.7440

Course summaries

ECE1105 - Introduction to Early Childhood Education (3 credits)

This course provides an overview of the early childhood profession through exploring and examining aspects such as historical roots of the profession, theory, program types for children birth through age 8, career opportunities, personal characteristics of professionals, developmentally appropriate practice and ethics.

ECE1107 - Child Growth and Development (3 credits)

This course provides an overview of the developmental stages of children ages prenatal through 8 including physical, social, emotional, language, cognitive and creative development. While studying the integration of theory and developmentally appropriate best practice, students will observe children and analyze characteristics of development at various stages. Attention will be focused on theory, developmentally appropriate, best practice and environmental factors that may affect development.

ECE1109 - Health, Wellness and Nutrition (3 credits)

This course will guide students in understanding the teacher strategies and skills needed to establish and maintain a physically and psychologically safe, healthy learning environment for young children ages birth through 8. Topics include preventing illness and accidents, handling emergencies, providing health, safety and nutrition educational experiences within the daily routine, meeting children's basic nutritional needs, child abuse and neglect, childhood stress, trauma and current health, safety and nutrition-related issues.

ECE1111 - Diverse Children and Family Relations (3 credits)

This course covers the relationship between the caregiver/teacher, child, family and community. Students will explore teaching and environmental strategies that promote understanding and support diverse cultural and family structures. Students will examine cultural diversity/dynamics, bias, sensitivity, theory and the importance of the context of family, culture and society as they relate to learning and child development.

Prerequisites:

- ECE1105
- ECE1107
- ECE1109

ECE1113 - Behavior Guidance (3 credits)

This course provides an examination of the physical and social environments that promote learning and development for young children. It includes an introduction to basic child guidance techniques for individual and group situations. Emphasis is on exploring, observing and practicing problem prevention and positive child guidance strategies through coursework and a lab experience. This course contains an off-site lab experience that will assist in guiding students to obtain the skills necessary to become successful professionals within early childhood settings. All students will be required to obtain and pass a Minnesota background check prior to completing 30 hours at an approved lab site.

Prerequisites:

- ECE1105
- ECE1107
- ECE1109

ECE1115 - Creative Activities and Environment (3 credits)

This course provides an overview of developmentally appropriate learning experiences in home, center-based and school settings. Students integrate knowledge of developmental needs, environments and teaching strategies to enhance all areas of a child's emerging development throughout the curriculum.

Prerequisites:

- ECE1105
- ECE1107
- ECE1109
