

POWERSPORTS TECHNOLOGY

ASSOCIATE OF APPLIED SCIENCE (AAS) - 69 CREDITS

About this program

Powersport technicians maintain, troubleshoot and repair equipment found in the powersport industry, including marine, snowmobile, motorcycle, all-terrain vehicle (ATV) and lawn equipment. In this program, you will gain the knowledge and hands-on experience to perform competently at the dealership level and be trained to gain the soft skills to help you toward the goal of management, manufacturer technical service representative or business ownership. Students will perform services on modern products using specialty tools and factory test equipment. Along with taking factory certification exams, students learn how to plan and perform repairs according to manufacturers' recommended procedures.

Program outcomes

1. Demonstrate safety, professionalism and related soft skills.
2. Apply theory of vehicle operating systems.
3. Diagnose vehicle operating systems.
4. Repair vehicle operating systems.
5. Interpret service information.

Curriculum overview

Crds	Requirement type
54	Required courses
9	Restricted electives in subjects
6	Restricted electives in course types
69	Total

Developmental courses note: A student may be required to enroll in developmental courses in reading, writing and math. A student's scores on the Accuplacer assessment will determine enrollment in developmental courses. The purpose of developmental courses is to prepare students for the demands of a college-level curriculum. *Credits may vary.*

Accreditation: Minnesota State Community and Technical College is accredited by the Higher Learning Commission, a regional accreditation agency recognized by the U.S. Department of Education. More information can be found at www.minnesota.edu/accreditation.

Curriculum requirement details

Required courses

Course	Crds
PWST1000 - Introduction to PowerSports	3
PWST1002 - Snowmobile, Off Road Vehicle and Motorcycle Maintenance	3
PWST1014 - Personal Watercraft and Marine Engine Maintenance	3
PWST1015 - Marine Engine Installation and Set Up	3
PWST1017 - Fuel Systems I	3
PWST1021 - Ignition, Charging and Starter Systems	3
PWST1025 - Fuel Systems II	3
PWST1080 - Snowmobile Engines	3
PWST1115 - Electrical Foundations	3
PWST2013 - Power Hydraulics	3
PWST2016 - Outboard Engine Systems	3
PWST2017 - Marine Drive Systems	3
PWST2115 - All-Terrain Vehicles Systems	3
PWST2206 - Chainsaws and Generators	3
PWST2210 - Snowmobile Clutch and Drive Systems	3
PWST2304 - Motorcycles I	3
PWST2308 - Advanced Snowmobiles	3
PWST2312 - Advanced Motorcycle Systems	3

Other requirements or restricted electives

3 credits from one or more of these Subjects:

- PSYC

3 credits from one or more of these Subjects:

- ENGL

3 credits from one or more of these Subjects:

- POLS

3 credits from these Course Types:

- General Education w/MnTC Goals

3 credits from these Course Types:

- General Education w/MnTC Goals

Course summaries

PWST1000 - Introduction to Powersports (3 credits)

This course is the study of powersports occupational safety, shop orientation procedures, and power and hand tool usage. The use of shop equipment applications, fasteners, measuring instruments and service literature will be addressed, along with appropriate service department etiquette. Two- and four-stroke engine theory along with their proper lubricants will be covered.

PWST1002 - Snowmobile, Off Road Vehicle and Motorcycle Maintenance (3 credits)

This course is designed to train the student in proper maintenance techniques for on- and off-road land-based recreational vehicles. Students are encouraged to bring their personal recreational vehicle(s) or use the up-to-date industry products that the college offers or both. Trailer maintenance also will be covered. This is an excellent course for getting equipment ready for an upcoming winter or summer season.

PWST1014 - Personal Watercraft and Marine Engine Maintenance (3 credits)

This course is designed to train the student on proper maintenance techniques for water-based recreational vehicles. Students are encouraged to bring their personal boats, outboards or personal watercraft or use the up-to-date industry products that the college offers, or both. This is an excellent course for getting personal watercraft and boats ready for an coming spring.

PWST1015 - Marine Engine Installation and Set Up (3 credits)

This course will cover marine engine and drive systems: fundamentals, engine removal, engine installation and basic system testing.

PWST1017 - Fuel Systems I (3 credits)

The Fuel Systems I course covers the theory and operation of basic fuel systems and the fuels that they deliver. This is the first of two fuel systems courses and will give students the solid foundation they will need to understand the more advanced systems in their future course work.

PWST1021 - Ignition, Charging and Starter Systems (3 credits)

This course is a continuation of the Electrical Foundation course and will cover the study of electrical systems used on power sports equipment. It will focus primarily on ignition and starting systems. Students will learn and apply the theories of ignition, induction, charging and starting systems. Emphasis will be on proper use of test equipment along with the generation and flow of electricity. Students will apply the theories of ignition, induction, charging and starting systems.

PWST1025 - Fuel Systems II (3 credits)

Fuel Systems II is the second in a two-part course series covering two- and four-cycle off-road and marine products. Students will apply the theories of fuel system operation to both two- and four-stroke engines. Included in this course will be inspection and troubleshooting, along with seasonal service requirements and fuel quality testing.

Prerequisites:

- PWST1017

PWST1080 - Snowmobile Engines (3 credits)

This course covers snowmobile engine designs, component identification and engine service procedures, as well as snowmobile fuel systems and service.

PWST1115 - Electrical Foundations (3 credits)

The Electrical Foundation course will cover the theory and practical operation of electricity. Multi-meters and test instruments will be used, giving students the solid foundation they will need to understand the more advanced electrical systems in their future course work.

PWST2013 - Power Hydraulics (3 credits)

This course covers the theory and service of hydraulic systems used on a wide range of off-road applications. Hydro-static transmissions, power steering and power trim system service will be performed. System troubleshooting as well as component service also will be included in this course.

PWST2016 - Outboard Engine Systems (3 credits)

Outboard Engine Systems introduces the fuel and electrical systems used on outboard motors. Primary focus will be on fuel and oil injection systems along with ignition, starting and charging systems. Students will learn the theories of operation and proper use of test equipment and repair.

PWST2017 - Marine Drive Systems (3 credits)

This course covers the operational theory and service of the outboard and sterndrive drive units. Gear ratios, drive shaft housing and gear cases will be investigated. Complete drive system disassembly, measurement, analysis, shimming and rebuilding will be performed.

PWST2115 - All-Terrain Vehicles Systems (3 credits)

All-Terrain Vehicles Systems focuses on various types of four-cycle ATV engine fuel and electrical systems. Students will also examine chassis and drive train components.

PWST2206 - Chainsaws and Generators (3 credits)

This course offers a comprehensive view of maintenance, diagnostics and post-repair inspections of chainsaws. This course also covers generator components and testing procedures. Students will test generator voltages and learn how to diagnose and repair generators. Students must have an understanding of electricity and electrical meter usage prior to taking this class.

PWST2210 - Snowmobile Clutch and Drive Systems (3 credits)
Snowmobile Clutch and Drive Systems identifies major components of the complete drive system and discusses maintenance, routine adjustment and tuning of the continuous variable transmission (CVT).

PWST2304 - Motorcycles I (3 credits)
This course focuses on various types of four-cycle motorcycle and ATV engines. Students will learn engine service and maintenance procedures. Students will also learn about motorcycle fuel systems and related components.

PWST2308 - Advanced Snowmobiles (3 credits)
Students will demonstrate troubleshooting skills. Students will perform electrical tests used in diagnosing electrical failures on snowmobiles. Students will learn and demonstrate a systematic approach to troubleshooting snowmobiles.

PWST2312 - Advanced Motorcycle Systems (3 credits)
This course is designed to test troubleshooting skills and knowledge. Students will be presented with motorcycle problems and, using a systematic approach, students will identify and repair the unit. This course is designed to simulate the role of a technician in a dealership. Students will be expected to write a work order, estimate repairs, make the repair and finalize the work order.

POWERSPORTS TECHNOLOGY

ASSOCIATE OF APPLIED SCIENCE (AAS) - 69 CREDITS

Program Plan — "AAS"

Locations: Moorhead

1st Fall Term (18 credits)

Courses

3 credits in one or more of the following:

Course Subject: POLS

Course	Crds
PWST1000 - Introduction to PowerSports	3
PWST1002 - Snowmobile, Off Road Vehicle and Motorcycle Maintenance	3
PWST1017 - Fuel Systems I	3
PWST1115 - Electrical Foundations	3
PWST2304 - Motorcycles I	3

1st Spring Term (18 credits)

Courses

3 credits in one or more of the following:

Course Subject: PSYC

Course	Crds
PWST1014 - Personal Watercraft and Marine Engine Maintenance	3
PWST1021 - Ignition, Charging and Starter Systems	3
PWST1025 - Fuel Systems II	3
PWST1080 - Snowmobile Engines	3

3 credits in one or more of the following:

General Education w/MnTC Goals

2nd Fall Term (18 credits)

Courses

3 credits in one or more of the following:

Course Subject: ENGL

Course	Crds
PWST1015 - Marine Engine Installation and Set Up	3
PWST2016 - Outboard Engine Systems	3
PWST2206 - Chainsaws and Generators	3
PWST2210 - Snowmobile Clutch and Drive Systems	3

3 credits in one or more of the following:

General Education w/MnTC Goals

2nd Spring Term (15 credits)

Courses

Course	Crds
PWST2013 - Power Hydraulics	3
PWST2017 - Marine Drive Systems	3
PWST2115 - All-Terrain Vehicles Systems	3
PWST2308 - Advanced Snowmobiles	3
PWST2312 - Advanced Motorcycle Systems	3
