SEAMLESS OPTIONS

TRANSFER

Save time and money as you work toward your four-year degree by starting at M State. We're part of the Minnesota State system's Transfer Pathway program, which makes it possible for our students to complete the first two years of their degree at M State and then transfer seamlessly to a bachelor's degree program at any Minnesota State university.

Visit minnesota.edu/transfer-programs.

EXPERIENCE COLLEGE WHILE IN HIGH SCHOOL

M State has a long history of collaborating with regional K-12 partners to create opportunities for all eligible students. Preparing youth for a successful college and career pathway is our priority.

Visit minnesota.edu/academics/k12collaborations.

CAREER SERVICES

With a focus on excellence, M State Career Services provides students access and opportunity to develop a personalized career track, connect with employers and job openings, and obtain job search support to build a foundation for a dynamic next step toward employment or continuing education.

AFFORDABILITY

Helps Bring Our Vision To Life

Low tuition, grants and scholarships make college possible for more students.

At M State, "affordable" is the first word in our mission statement. Our tuition rate is one of the lowest in the state and more than half of our students attend tuition-free thanks to scholarships, grants, sponsorships and other aid. Our college's two foundations award over \$300,000 in student scholarships annually, benefiting hundreds of M State students.

Visit minnesota.edu/financial-aid.

Z-DEGREES

The cost savings of Zero Textbook Cost Degrees, better known as Z-Degrees, is substantial: It's estimated that students in Z-Degree programs save about \$2,000 a year, or a total of \$4,000 for a two-year program.

Visit minnesota.edu/z-degrees.

CREDIT FOR PRIOR LEARNING

M State recognizes that knowledge and skills are gained beyond the traditional classroom setting. Students may apply to obtain course credit based on previous relevant life, learning, military and work experience.

FIND YOURSELF

The statistics prove it: College students who participate in extra-curricular and community activities succeed at a higher level in their careers. Employers increasingly look at a student's college involvement when making hiring decisions.
